

Creator of digital products

 elips

— 01 — WHO ARE WE ?

Elips is a team of passionate experts in 3D visual production

Specializing in the creation and sale of digital products for professionals, we offer a range of services, from creating photorealistic or basic VR tours viewable on all devices to producing rendered images and videos.

Our team consists of experienced 3D graphic designers and architectural draftsmen. Our services facilitate the implementation, communication, and sales of your projects, products, or creations.

We understand professionals' expectations and ensure that your productions are showcased in 3D renderings

We feel great satisfaction when our clients appreciate our work, and we look forward to collaborating with you in the future.

Our services are aimed at:

- Real estate development companies
- Architectural firms
- Interior architects
- Renovation companies
- Real estate agencies
- Landscape designers

— 02 — OUR PROCESS

1

Fill out the contact form

From the contact form on the site, provide your contact details, the service(s) you need, and all relevant information and documents related to your project, such as:

- CAD files like floor plans and elevations.
- 3D model.
- Information on materials, colors, and textures.
- Photos.
- Contextual information, such as a Google Map link.

2

Sending the quote

Once all your requests have been recorded, we will send you a personalized quote.

Please return your signed quote, and we will get to work.

3

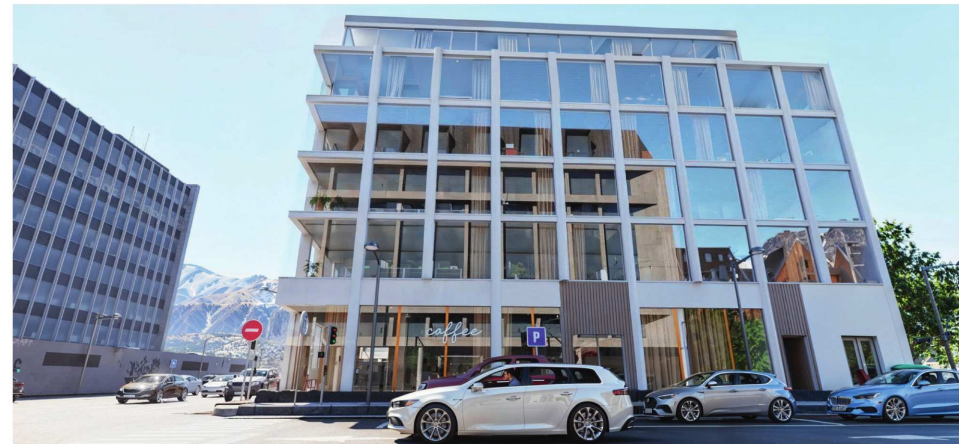

Creation process

We will first provide you with an initial draft rendering. Then, we will await your corrections and additions, and we will continue, with up to three rounds of revisions, until we achieve a rendering that meets your expectations.

4

Receive your high-resolution rendering

Once all revisions and adjustments have been completed, we will create the final VR tour or 3D rendering of your project and send it to you.
